# MANGO OASIS

**WHAT YOU SEE IS ONLY THE SURFACE.**

Wrinkled colors fall, tear, open. And suddenly, the sky appears. A horizon. A feeling. BABA plays with layers not to hide, but to reveal. Every background becomes a threshold, every look a passage from texture to light, from fabric to summer.

# COCONUT KISS

**EACH GARMENT IS  
ENGINEERED TO MAXIMIZE COLOR**  
payoff on lightweight textile bases: the technicality  
of the cuts ensures that body movement does not  
distort the print's legibility but rather enhances its  
three-dimensionality. It is a calculated balance  
between aesthetic impact and functionality, where  
design becomes a tool to interpret a dynamic,  
effortless elegance.

# FLOWERS BEAT

**PICTORIAL VIBRANCY:  
THE WEARABLE ART**  
The collection culminates  
in a celebration of  
chromatic expression,  
where garments  
become canvases for  
bold, pictorial textures.  
These painterly prints  
bridge the gap between  
contemporary art and  
sartorial design, featuring  
fluid brushstrokes and a  
kaleidoscope of pigments  
that dance across the  
fabric.

**PRINTS SPEAK IN COLOR.**

Cuts answer with movement. Lightweight silhouettes follow the body without ever constraining it. Lines are soft, intentional, designed to flow. Prints feel sun-washed, vivid, alive like fragments of summer caught in motion. Nothing is rigid. Everything is meant to move.

**MONOCHROMATIC RIGOR  
AND METALLIC INFUSION**  
This seasonal narrative  
centers on a high-contrast  
dialogue between deep blacks  
and optic whites, a timeless  
palette redefined through  
contemporary silhouettes. The  
visual tension is punctuated  
by strategic gold inserts,  
applied with surgical precision  
to illuminate the garment's  
architecture.

THESE METALLIC ACCENTS are not merely decorative but serve as focal points that guide the eye along the seams and structural lines. The result is a sophisticated interplay where the sobriety of the monochrome meets the tactile richness of gold, elevating essential pieces into statement-making couture.

This collection unfolds like a tear in the surface: each look opens a new landscape, each color tells a brighter story. THE TECHNICAL COMPLEXITY OF THESE PATTERNS requires an absolute mastery of textile printing to ensure that every shade remains luminous and every gesture of the print feels spontaneous. It is a grand finale of color and energy, designed for those who view fashion as the highest form of self-expression.
